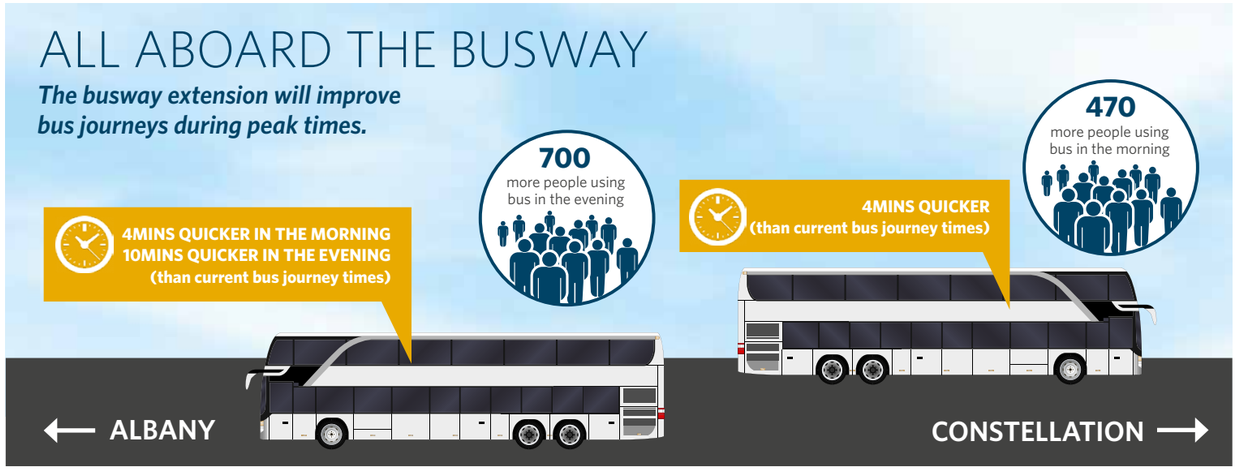
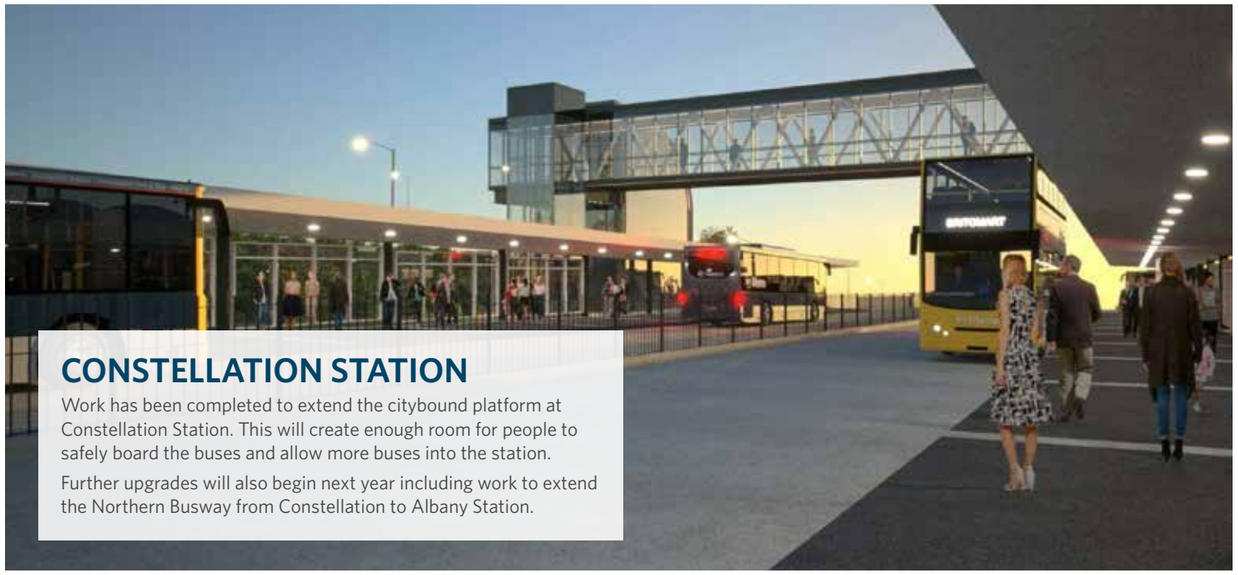
ALL ABOARD THE BUSWAY

The busway extension will improve bus journeys during peak times.





CONSTELLATION STATION

Work has been completed to extend the citybound platform at Constellation Station. This will create enough room for people to safely board the buses and allow more buses into the station.

Further upgrades will also begin next year including work to extend the Northern Busway from Constellation to Albany Station.

VISIT THE HUB

The visitor hub was officially opened in July with more than 200 residents, motorists and business people from the wider Rosedale and Albany areas stopping by to find out more about the project.

The hub gives people access to the latest maps, animated flyover and information as well as details about upcoming work in the area that will impact their daily journeys.

It is open during the week Monday to Friday from 9am to 4.30pm and located at 10 Rothwell Avenue, Rosedale.

To find out more or provide feedback, please contact our Community Engagement Managers Emma Cushnie and Trish Viall.

IT'S ALL GO FOR THE NORTHERN CORRIDOR IMPROVEMENTS PROJECT

Construction for the Northern Corridor Improvements project is underway, kick starting this major four year construction programme on the North Shore.

The project is an important link in helping to realise the full benefits of the Western Ring Route by giving people an alternative route to State Highway 1 and the Auckland Harbour Bridge. It will also create better travel choices for walkers, cyclists and users of public transport.

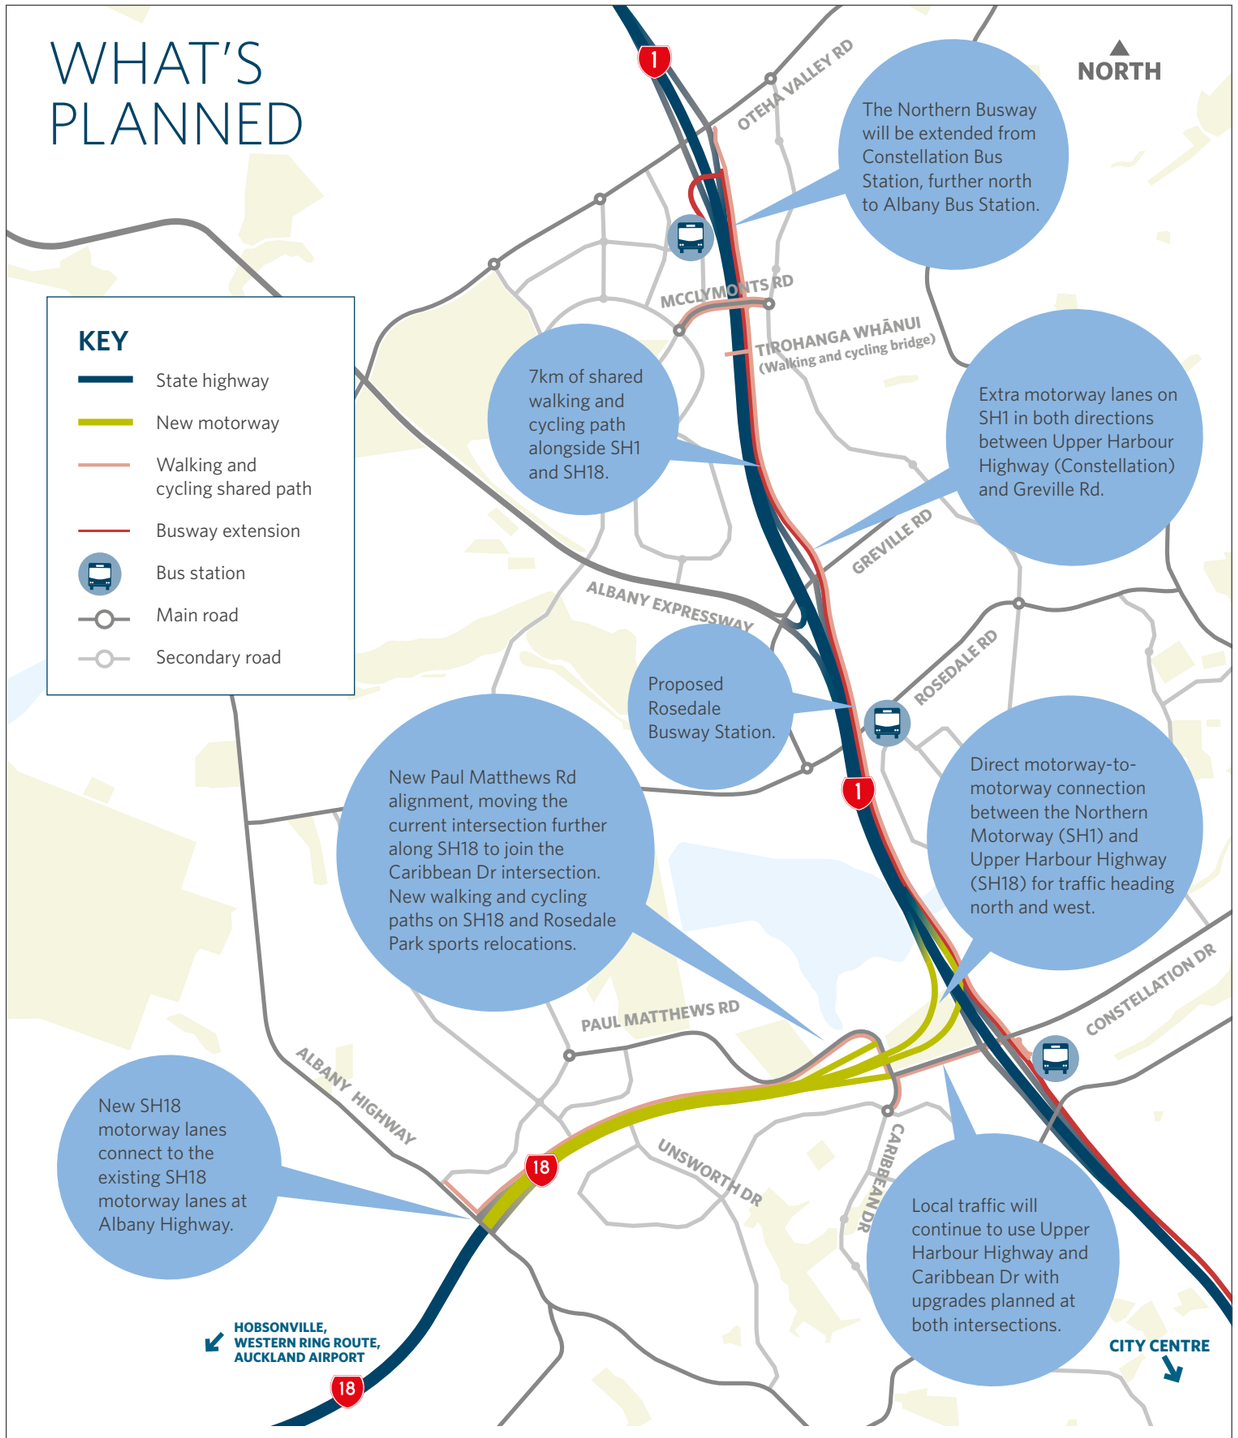
The project includes additional lanes on SH1 between Constellation Drive and Oteha Valley Road, a new motorway connection linking SH18 (Upper Harbour Highway) and SH1, and the extension of the Northern Busway from Constellation Station to Albany Station. It also includes more than 7kms of new walking and cycling paths.

Residents and commuters in the Albany area will have already noticed work taking place including motorway resurfacing, construction of Tirohanga Whānui (walking and cycling bridge) and clearing work in Constellation Reserve. Work has also started on the new North Harbour BMX facility, new North Harbour Hockey as well as an upgrade to Wainoni Park Pony Club.

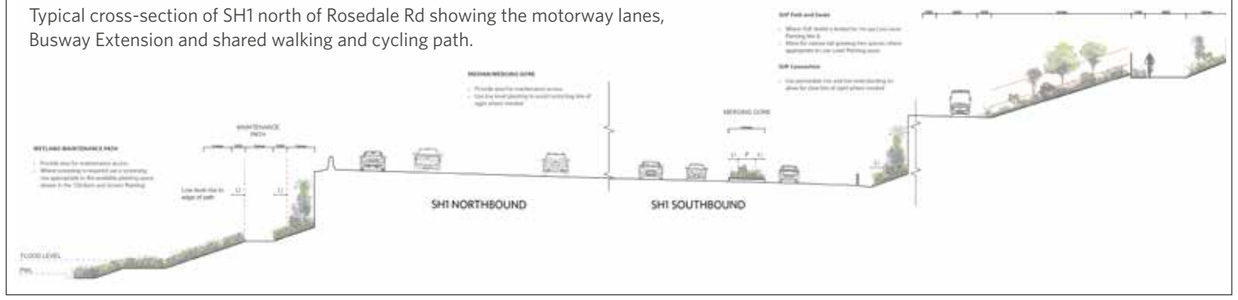
IN THIS UPDATE

- Key features
- Sports facilities
- Constellation Station and the Northern Busway extension

WHAT'S PLANNED



Typical cross-section of SH1 north of Rosedale Rd showing the motorway lanes, Busway Extension and shared walking and cycling path.



WORLD CLASS SPORTS FACILITIES FOR NORTH HARBOUR

Avid sports fans in the North Harbour area are one step closer to having access to three new, world class facilities after construction started earlier this year.

NORTH HARBOUR HOCKEY FACILITY AT ROSEDALE PARK

The new site for North Harbour Hockey was blessed by mana whenua at a dawn ceremony prior to works starting on an international standard complex. Key features include four new hockey turfs (two of Global Elite standard and two of National standard), a two-storey pavilion, covered seating for 450 spectators (with capacity for larger events when required), 370 carparks and a walkway to an existing turf.

WAINONI PARK PONY CLUB AT GREENHITHE

Rosedale Pony Club, Greenhithe Pony Club and Whenuapai Pony Club have formed the Wainoni Park Pony Club and will share facilities with Greenhithe Riding for the Disabled once construction is completed by early next year. With two all-weather arenas, new and upgraded clubrooms, extra parking to accommodate horse floats and grooming pens among the upgrades, riders will have a modern and safe space to enjoy.

NORTH HARBOUR BMX AT HOOTON RESERVE

Work is on track at Hooton Reserve to construct the world class premier facility for North Harbour BMX riders. The facility will include a professional track with an 8m ramp and berm jump. This gives it the ability to host international events. An amateur track will also be built with a 5m ramp and rhythm section for aspiring BMX riders. The new track surface, floodlights, lockable gate and fencing will provide riders with a safer facility.
